Community Engagement and Outreach Division Update

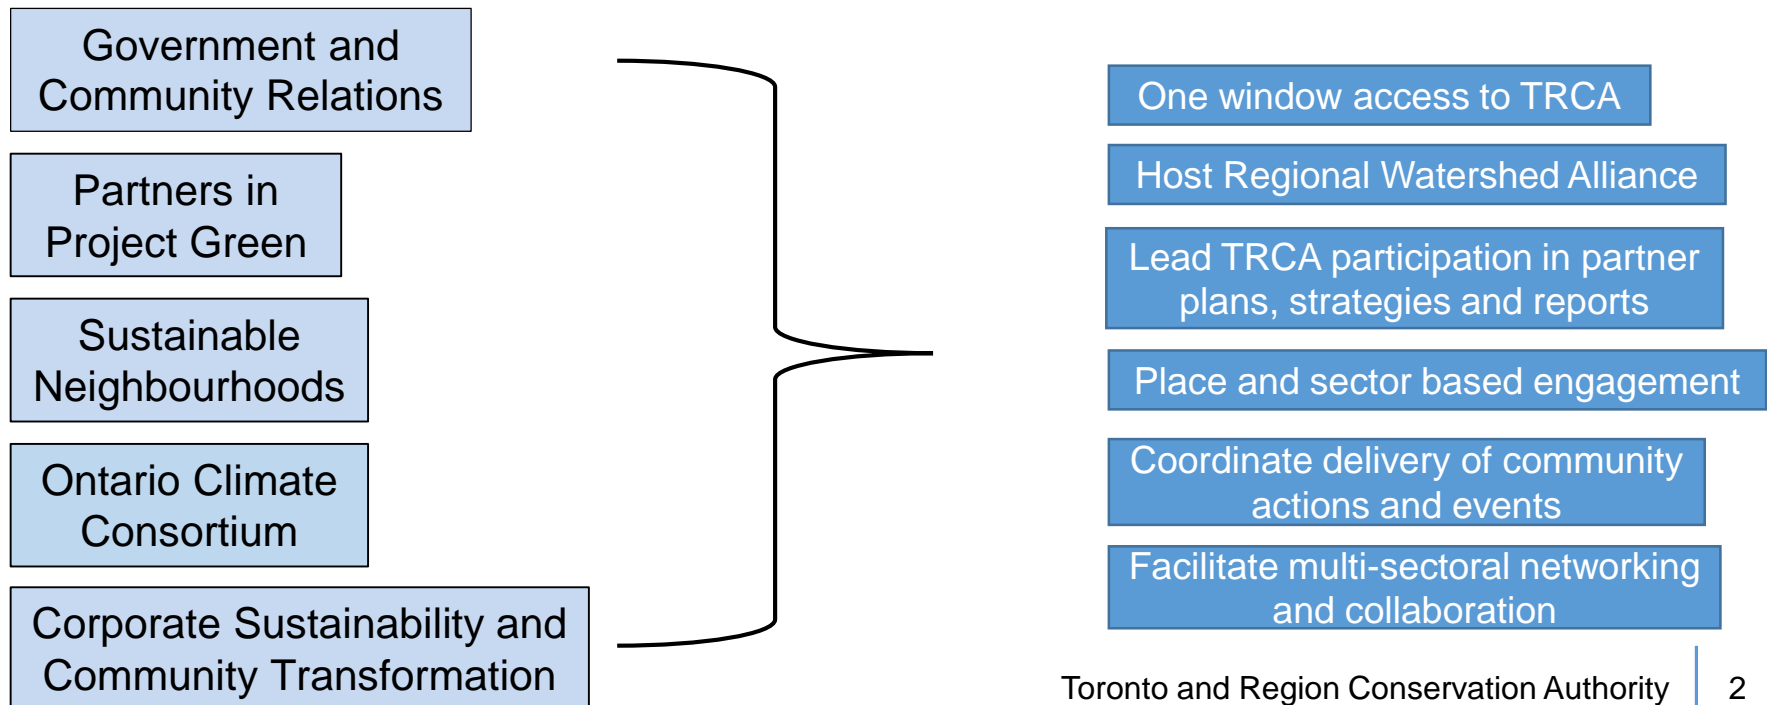

Presented by: Bernie McIntyre, Senior Manager

February 26, 2019

Community Engagement and Outreach *Priorities*

Operationalizing CE&O division's new role

Mandate: Leadership in community mobilization and the design of collective, cross-sectoral solutions that catalyze action toward watershed management goals, resilient communities and other shared priorities of TRCA and its partners.

Community Engagement and Outreach *Priorities*

- Help municipal partners address Lake Ontario Flooding Issues by Coordinating Council, staff and public engagement with flood management, R&I and communications
- Working with CEO's Office and Corporate Services to prepare complete inventory of current agreements and develop SLAs and MOUs with lower tier municipalities
- Supporting implementation of municipal strategies (e.g. Brampton's 2040 Vision) through TRCA programs, and connecting municipal partner needs to TRCA services

Community Engagement and Outreach *Challenges*

- Positioning engagement, climate change and sustainability programs and services in light of CA Act changes and to better support TRCA business needs
- Strengthening climate services to align with municipal and federal needs and funding support
- Work with the TRCF to determine if Manulife will re-new sponsorship or work with TRCF on another project that suits their interest

Community Engagement and Outreach *Required Cooperation*

- Operationalizing CE&O division's new mandate will require consultations with each division to align roles and responsibilities
- Planning for Community Consultation Office within CE&O to work with other Divisions and communications to ensure consistent approach to stakeholder identification and engagement
- Update TRCA's Climate Action Plan to better address partner needs

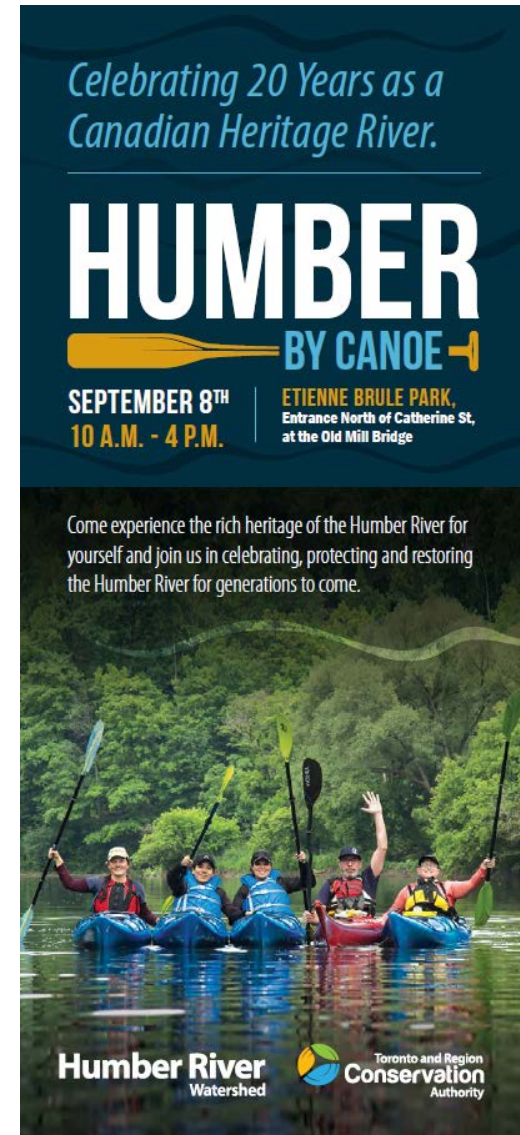

Community Engagement and Outreach Heads Up

- Humber River - Canadian Heritage River Designation – 20th Anniversary
 - Humber by Canoe Sept 8, 2019, Etienne Brule Park
