

# Senior Management Team

## Policy Planning - Update

Presented by: Laurie Nelson, Director  
Policy Planning

November 28, 2019

# Policy Planning – Priorities

- Drinking Water Source Protection:
  - Funding proposal for submission to Province - Nov. 29<sup>th</sup>
  - Complete pre-consultation for new Aurora Well
  - Annual Reporting materials for Year 4 implementation of SPP
- Municipal Asset Management Planning – working with York Region and Mississauga (in collaboration with OCC) on incorporating natural assets into their plans
- Planning Ecology – competitions completed to replenish staff resources and increase overall capacity
- CA Act – Consultation with Minister, MECP and provincial staff
- Updated Regulation Mapping – TRCA web page and search tool, distribution to municipalities, response letters to stakeholder comments, staff training, protocol for tracking annual updates

# Policy Planning – Challenges

## Planning Ecology

- Multiple LPAT hearings with concurrent mediation and settlement negotiations

## Policy and Source Protection

- Capacity pressures and time sensitive deadlines due to staff vacancies

## BILD Sub-Committee

- SWOT Session – Industry feedback discussion with staff (Planning Ecology and Engineering)

## Pending outcome of PPS Review

- Implications to in-process and new Special Policy Area reviews

Proposed Provincial Policy Statement – July 2019

### **3.0 Protecting Public Health and Safety**

(Note: policies in this section related to natural hazards are subject to ongoing review by the Province's Special Advisor on flooding. Further changes may be considered as a result of this review)

# Policy Planning – Required Cooperation

## **Municipal Comprehensive Reviews**

- York Region - Natural Heritage System and Agricultural Planning, Municipal & CA Workshop
- Durham Region – CA (5) Working Group – Growth Management Focus Session; Environment and Greenland Systems Discussion Paper
- Peel Region – Conformity with Provincial Plans (ORM, Greenbelt, NEP), Agricultural and Rural Systems – Discussion Papers and Draft OPAs

## **Greenbelt Golden Horseshoe CA Collaborative**

- Workplan and deliverables for 2020 – increasing opportunities for regional collaboration, consistency and commenting/positioning on matters of shared “urban/high growth” CA interests

## **Partnerships to Assist Municipal Partners**

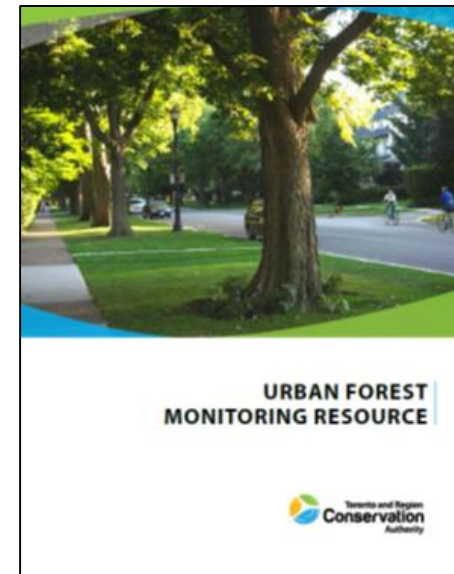

- RKM and R & I – detailed assessment of potential tree planting opportunities within Peel Region to inform municipal and TRCA implementation
- Academic; leverage Research and Science Working Group deliverables (e.g. UTM, NSERC)

## **CO Client Service Initiative/BILD Working Group**

- Development & Engineering Services - Updating technical checklists (e.g. ESC, geotechnical, watercourse alteration, etc.); staff training; streamlining

# Policy Planning – Heads Up

- Urban Forest Monitoring Guide:
  - state of science in urban forest remote sensing methodologies and study design
  - resource for municipalities updating their urban forest studies and plans
- CTC SPR website ([www.ctcswp.ca](http://www.ctcswp.ca)) – new resources being uploaded to assist with making the policies in the CTC Source Protection Plan more user-friendly
- CVC Draft Ecosystem Offsetting Guideline (consultation) - minor modifications to TRCA's approach
- CA Act Enabling Regulations, Outcome of PPS review, Special Flood Advisor's Recommendations
- Will communicate any information on draft regulations once known
