[11:30 a.m.] Amanda Stock

Could this be used to assess/corroborate existing identified significant habitat areas for aquatic SAR (e.g. Reside Dace)? Or because it uses MNRF datasets would it be equivalent to their mapping data?

[11:30 a.m.] Jackie Ho

Similar question - Do you have a sense of how much more sensitive habitat/area was captured in this mapping project compared to older versions of SWH or NHS data? Perhaps by percentage of jurisdiction or area?

like 1

[11:32 a.m.] Namrata Shrestha

This is likely more coarser version; requires more field verified info as planning process

like 2

[11:34 a.m.] Namrata Shrestha

Some of the older layers also have been updated now so may be less relevant

like 2

[11:37 a.m.] Laura DelGiudice

Maybe could also be used to inform our own infrastructure projects - areas to avoid.

[11:38 a.m.] Kelly Jamieson

An idea on use. Could be used by PARM to inform new lands acquisitions to purchase lands that have been identified as significant and outside of the current target NHS

[11:52 a.m.] Melanie Book

Thank you!

[11:52 a.m.] Kristen Sullivan

Thank you!!

[11:52 a.m.] Sandra Spudic

Thank you for the excellent presentation and summary of your work, Lyndsay Cartwright ! Great questions and discussion too.

[11:52 a.m.] Lyndsay Cartwright

Thanks Sharon and everyone.

[11:52 a.m.] Dell Tune

Thank you!

[11:52 a.m.] Allison Donnelly

Thanks very much!

[11:52 a.m.] Matthew Fraschetti

Thank you!

[11:52 a.m.] Amanda Stock

Thank you for a very informative and interesting presentation!

[11:53 a.m.] Debbie Pokornik

Thank you so much!

[11:53 a.m.] Elizabeth Speller

Thank you!

[11:53 a.m.] Kirstin Pautler

Thank you!

[11:53 a.m.] Rebecca Spence

Thanks!
